

The Operational Improvement family of training and consulting services is focused upon the improvement of operational efficiencies and effectiveness within the office and/or plant.

Each training and consulting program or service is customized to best meet the needs of the participants and organization. It is recommended that any training provided is accompanied by real-life application, therefore, many programs include simulations, activities and implementation exercises.

### **Topics include but are not limited to:**

- The Valuable Employee (Financial Literacy)
- 5S Workplace Organization Overview
- 5S in the Office or Plant
- Lean Manufacturing  
(Overview, Overview w/Value Stream Mapping, Workshops)
- Lean in the Office
- Continuous Improvement
- Project Management
